with monks the kitchen pour from a picture of water several times before getting Then for a full minute the crisp silence is broken by the solemn pealing of the Great Bells from the cloistered community. Three dozen pairs of feet swing off mattresses that dominate the small curtained cells, onto cold concrete floors. There is the sound of men donning hooded ceremonial robes with little fumbling for them in the dark for they have no other personal effects. The usual cursing and bickering of commonly quartered men is absent. In fact, no words are exchanged. Footsteps echo through corridors leading to the chapel. Chants begin in sleepy, imperfect unison punctuated now and then by a yawn or a sneeze. Yet soon the tenorish voices become one in purpose. The White Monks of Trinity Abbey have awakened to another eighteen-hour day.

Story behind the story

Mixing it up

Holdman: behind the curtains

Cooney: after the story

A medieval monastery high in the Alps of a Catholic province? Hardly. Trinity Abbey, or Abbey of Our Lady of the Holy Trinity as it is more accurately called, consists of pioneer monks who were sent from a mother abbey in Kentucky to live in, but not of, the Mormon community of Huntsville, Utah.

After spending a night and a day in a monastery, Monday Magazine writer Kim Cooney and photographer Floyd Holdman have no desire to become monks.

'I have enough problem keeping the hair standard at BYU," said Cooney, "so why ask about shaving my head."

Even though the two are not looking to enlist, they left with a healthy respect for the monks and

water several times the shot he wanted.

Photographer H

Holdman is a

perfectionist, and he's persistant on the job. The monks

discouraged him from entering the

fields to get an overview shot of the monastery, but Floyd saw his chance when leaving and leaped from the car, springing into an "off-limits" cow pasture to get the In the town, a maternal old woman affectionately known as Grandma Shupe peers out through bottle-thick glasses. She has spent 88 of her 90 years in Huntsville, and her "Valley House" is a local landmark. She leans back in her chair and recalls that the town has been a mecca for the monks since about the time of Huntsville's Centennial, 1947.

Another long-time resident, Abner Allen, who lives just around the corner from the late President David O. McKay's home, remembers the initial contacts between the Catholics and the Mormons in Huntsville. If you press Abner hard enough, he'll admit there was a minor hassle regarding water

people has a portion of truth; however, a lot of students at BYU neglect the fact." Cooney nor Floyd Holdman is about to enlist in the monastery life. "A monastery would be a nice place to study the scriptures," commented Holdman, "but the place is too isolated and the life is too routine to suit Kim Cooney had some problems of his own. "I had to rely on my recall and brief notes to construst the story," he said. Cooney got the story because he wanted the chance to share the mentioned, neither Kim y nor Floyd Holdman is monks with the BYU rights and the monastic property, but he hesitates the even mention it. He prefers to emphasize the monks' cooperation since then. "Why, jest today, borrowed a beef scale from Brother Joseph uthar," he says, "ther all fine men, real fine fellas.

midst of something spiritual," reported Kim, "and the camera clicks echoed off the walls of the chapel." Cooney suffered an acute attack of self-consciousness in the silence until he adjusted to the seremity. "I enjoyed the silence after a while—it helped me concentrate on the story."

Cooney's dependence on photographer Holdman caused some conflict. "It seemed odd to have something mechanical in the

made me see how much I depend

healthy respect for the monks and their way of life. "I admired their self-reliance," said Kim, "they

shot he wanted.
Kim Coon

## Who are they?

His sense of humor too easily betrays him. As he recounted: "We were about to cross a field to see the farm operation when our monk guide gave us overshoes to put on. Mine were extra-large, but I still couldn't get them on. After struggling with them for quite a while, I broke out laughing... I couldn't help it...it just got to be funny." me...besides my wife wouldn't like the idea of moving to a monastery."

Cooney also concluded that he was just not cut out to be a monk. His sense of humor too easily contemplative prayer, manual labor, a preference for silence, and simplicity of life. The Huntsville site was selected for meeting such criteria. The 2,000-acre compound allows them privacy, seclusion, and the opportunity for productive labor Who are these monks? They are called "Cistercians." The Cistercian Order originated in the 12th century as a reform movement within the Benedictine family. They are also called "Trappists" meaning that their monastic calling requires the farm or in small industries

serenity. "I enjoyed the silence after a while—it helped me concentrate on the story."

It wasn't that Floyd enjoyed disturbing the peace—he just had a job to do. "Reporters need to realize," he said, that a photographer can't just walk into a room and with one click come away with a good shot." Holdman worked for his shots by first surveying the monastery and the movement of the monks and then positioning himself for the picture.

The farm consists of 600 acres of alfalfa and nearly 200 acres of grain. The dairy milks about eighty Holsteins, and the poultry department oversees 10,000 white Leghorn hens producing 500 dozen eggs per day. There is a herd of 300 beef cattle and colonies of bees for honey production. The monks also make homemade whole-wheat and the beat the state of the second cattle and colonies also make homemade whole-wheat and cattle cattl bread available bread. The honey is available by mail order, read available at the bookstore the Brothers

3 a.m. with available light. The cover photo is a candid shot of a meditating monk at 6 a.m. For the most part, Floyd caught the monks in candid action; however, he once made a monk working in

The chapel shots were taken at

The work ethic is not unfamiliar to Latter-day Saints, and it answers the question most often asked by Mormons of the Monks, "Well, what do they do all day?"

Magazine

IIIONday

of the Daily Universe A Weekly Publication

during the Fall and Winter periods.

But there are two other major elements of monastic life. Ironically, both are similar to major elements of a typical day in the two-year mission of a Mormon elder. One is the concept of Holy Leisure or "Lectio Divina." This is somewhat like diversion day except it is scheduled daily. It consists of theological and secular reading or the pursuit of individual talents. It's through "Lectio Divina" that the knowledge of the Greeks and Romans was through the Dark

unlike Mormon missionaries the monks of such active orders as the Jesuits and Franciscans, the Work of God for the monks of Huntsville is exclusively the chanting of community prayers six times daily and other element is called the Work of God. But

Publisher/M. Dallas Burnett Editor/Pamela J. Park Associate Editor/Ken Shelton Photo Editor/Mark Philbrick

Catholic neighbors this way: "They feel that in as much as their schedule begins at 3 a.m. and concludes with vespers at 7:30 or 8 p.m. that somewhere in the world at any given moment, there are groups of Cistercians engaged in petition to God on behalf of all men. As the sun moves around the world, Cistercians arouse themselves and take their place in the chain. It's a very selfless concept."

Lewis illustrates how the monks "live in the Lewis E. Buhrley, a bishop of the Mormon ward in Huntsville, explained the philosophy of his the celebration of Mass in the mornings. The church prayers consist of texts of Sacred Scripture, notably the psalms, Gospels and Epistles, punctuated with ancient Christian hymns, prayers and commentaries.

Lewis illustrates how the monks "live in the Mormon world but not of it" with this story: "A few years ago one of the residents in the community was injured in a blasting accident and was blinded. It was six months before the sight in his one repairable eye began to return. The brothers of the monastery were among the first to go over and inquire of the family if there was anything they could do. They just never let their different philosophy of life interfere with their feeling for what happens around here."

## Not for everyone

The monks are the first to admit that not everyone is suited for such a life, that it takes a special person to accept the vocation. There have been numerous occasions when the Reverend Father or Abbot has suggested to a would-be monk that he seek his happiness elsewhere, because in his seek his happiness elsewhere, because in his judgement this individual wasn't suited to it. Thus, like Mormons, the monks think of their calling very surely as having come from God. One of them put it this way, "No way of life is better than any other as long as it is bonest."

their studying. One fellow had his doctorate in chemistry, and I wondered if he wasn't wasting himself because the only chemistry he was involved in was shoveling manure from behind the cows. This was before Dr. Salk had discovered an adequate polio vaccine and we were having an outbreak of polio in Utah. I suggested that someone with his talent would probably be more valuable working on a cure. It was suggested to me in reply, quite rightfully, that perhaps I had my values rightfully, that perhaps I had my values confused—they were praying for the souls of men and I was overly concerned with the welfare of the body. Furthermore, I was reminded that everyone has to die sometime, that what one died of was not as important as the assurance that they would live again by God. Thus, one may question the monks isolation, but after becoming acquainted with them, The requirement of seclusion for most people is the hardest aspect of monastic life to understand. Bishop Buhrley remembers having the same doubt: "After having met some of the monks, who are people of tremendous minds, I thought it a waste that they should remain cloistered and secluded in

remember a map circulated among Catholics wherein Utah was outlined and shaded black. There was a little white circle indicating that in Huntsville there was a break of the "stranglehold" the Mormons exerted on the state. But practically none of those who saw it believed it originated with the monks." you'll never fault their motives."

The bishop is only one of 4,000 Huntsville residents who have relished the monks home-made

Monastery . . . the very word conjures up romance. One immediately relives the movie where the injured American bomber pilot eludes the grasp of pursuing Gestapo agents by seeking sanctuary in the tender yet courageous hands of monks in a fortress-like monastery.

Such an image of silence and security is not The monastery . . . the very w

One aspiring to the monastic life may stay for a period of time as an "observer." After that, one may join with the monks as an "apostulate". Should one commit himself for a vow of several years, he becomes a "novice", which is the actual canonical beginning. In any case, silence is the key to either a successful retreat or lifelong vocation. In a Such an image of silence and security is not entirely exaggerated by Hollywood. The Huntsville location provides a retreat for any man over twenty who is seeking time to talk with and listen to Christ. successful retreat or lifelong vocation. In a monastery, one seeks to glorify God in solitude

over \$200 3 gifts

Christmas shopping will be a little easier this year for the winner of the Daily Universe treasure hunt. A brown bag, labeled "Santa's Bag of Goodies", has been hidden certificates worth over \$200 donated by local merchants week another bag will be ealed in a different on. Each bag contains gift icates worth over \$200 be niquent in sponsoring merchants. And in order to find Santa's bag, most of the clues must be identified. The person who finds the bag can redeem it for the gift can redeem at the Daily certificates at the Daily Universe office. The deadline to find the first bag will be Friday, Dec. 6, and the deadline for the second bag will be Friday, Dec: 13. Friday, Dec. 6, deadline for the swill be Friday, Dec. week; however, the clues will be hidden in the ads of the

Goodies", has been h somewhere on campus,

In order to find the bag, a person will not be required to trespass or destroy private property. Attendance at the two contests pped 12,000 Friday night and

topped 12,000 Frid 10,000 on Saturday.

Forward Brian Frishman(33) gathers in a rebound as Jay Cheesman (50) blocks out a member of the Brazilian National team. The Brazilains outrebounded the Cougars 51-39.

Photo by Chris Huish

Starting today, clues will appear in each issue of the Daily Universe. Between 10 and 15 clues will be given each

following the first half debacle was 35-17 and the Cougars were only able to cut the score appreciably in the final minute of play in the game.

Boston Celtics to lead all players with 19 points on five of six from the field and nine of 10 from the foul line. The sometime Nielsen and center Troy Jones were both exceptional in the Texas contest. Nielsen came off bench much li icek used to do guard-forward Gifford on the BYU football like John the

Jones was an awesome presence under the basket a good part of the evening, collecting 16 points, 10 rebounds and some spectacular blocked shots. team also grabbed six rebounds and played a good floor game.

Gary Batiste, in his slick debut at BYU, poured in 17 points and frequently punctured the Longhorn zone defense with

held to a stone cold 26 per cent by the grudging Cougar zone.

The Saturday night contest with the Brazilian National team, a squad that does not include any of the front-line players from the Brazilian team that will represent that country in the next World Games, was preceded by a ceremony in which the players and coaches of the respective teams exchanged small gifts.

The Cougars' pre-game generosity seemed to prefigure what happened during the game. BYU turned the ball over 24 times—for a total of 49 freebies in the two games—and threw up a sleepwalker's defense in the first half, together with shooting only 25 of 66 from the field for the game.

Brazilian coach Edson do Santos characterized his team's win as its best effort of a 10-game tour of the U.S. in which BYU is only its second victim.

It is to the Cougars' credit that they never stopped trying to come back in the second half but Brazil was on the way to a 53 per cent shooting night and was often able to capitalize on Cougar defensive

Cougar scoring was fairly uniform with Mark Handy and Jones picking up 11 each and Brian Frishman and Jay Cheesman following with 10 apiece.

Į

Brazil played a steeljacketed zone defense throughout the contest and for long arid stretches in the first half BYU could not have bought a bucket for all of the cruzeiros in the world.

italize on Cougar defensive by fastbreaking for some

The rebounding was not even close as Brazil plucked off a dozen more caroms than the Cougars,

kidnapping and aggravated assault charges was arguing heatedly with another immate over the subject of religion. A third inmate, waiting to be arraigned on charges of public intoxication, tried to call a halt to the fracas and was attacked by the immate in transit. By the time help could be sum moned by the jailer the unfortunate peacemaker was in need of 35 stitches, having had his head smashed repeatedly against the unyielding iron bars of a cell. Cahoon and his deputies have done a great deal, within the confining limits of meager funding and the atrocious facility, to bring about a tolerable atmosphere for the inmates. Cahoon installed a television in the main tank two years ago and used access to it as a leyer to inspire conformity to jail regulations. The inmates are allowed to play cards, chess, or use the jail's Lilliputian library, pouch tobacco and rolling paper, writing supplies, and various arts and crafts, providing the inmates buy their own materials.

Separate quarters exist for inmates allowed by the courts to participate in the jail's work-release and school-release

lacking.

two are "weekenders," inmates allowed to remain away from the jail for five days out of the week.

All meals are cooked and served by trustees and the general upkeep of the jail is performed voluntarily by the inmates, who do not mix with the main tank prisoners there is little chance for contraband to be disseminated throughout the jail. Three trustees are currently on work-release and

(Cont. from page 4)

are motivated in part by a knowledge that Cahoon can give them five days of "good time," or time off sentence, per month for good behaviour. Visiting hours are twice a week for three hours but if there is a large jail population on a given day, only one ten-minute visit with close relatives is possible. The need for a new jail was recognized as long ago as 27 years Need for new jail

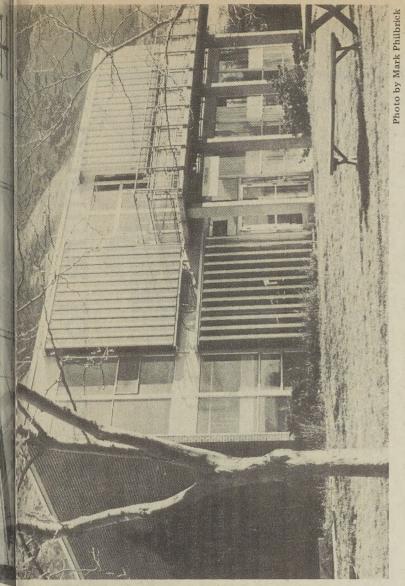

drastic changes. recognized as long ago as 27 years a c c or ding to Josephine Zimmerman, who served on a jail committee then and is currently a member of the committee appointed by the county commissioners to provide recommendations for a new facility. She said nothing was done at that time because support from the county commission was

south of Provo on US 89-91. The move because there is a state law center is presently being used as a that mental patients cannot be private nursing home.

Within a year a minimum prisoners. One of the committee is security jail could be ready, void members said there might be a cof bars and steel doors, where problem in finding a new place to inmates could be confined and house the center. If the facility is used for a jail the health center or available.

Counseling facilities would also be will have to find another location but will have at least a year or more to discovered. Within a year a minimum security jail could be ready, void of bars and steel doors, where inmates could be confined and still receive work privileges. Counseling facilities would also be vavailable.

Money, as always, is another potential snag. Commissioners and more to do so. wing would be relatively simple as the construction of the original building included plans for another wing that has never been

The Eldred Center is the likliest prospect at the moment for housing a new county jail. The current commission has felt e compelling need for some astic changes. "Out jail is really disgrace," says County

a disgrace," says County Commissioner Yukus Inouye. Commissioner Verl Stone is especially concerned with the lack of rehabilitation possibilities.

Acting on their collective dissatisfaction with the current jail, the Utah County Commission

The Eldred Center is large. Prisoners could be separated. And there is talk of later adding a maximum security wing to wipe out any need for the old Utah County jail. The addition of a new seven months ago appointed a nine-member committee to develop a realistic plan of action for positive change in the jail facilities. The committee, consisting of a judge, a police chief, Sheriff Holley and a "Daily Herald" reporter, among others, Herald" reporter, among others, had to deal with the hard reality that two years ago county voters rejected a bond issue proposal to build a new judicial-security building. Sheriff Holley, who

There are problems of course. The building is rented out to three

There are still details to be cleared up. If so, the Utah County
Jail with its peeling paint and cracked ceiling and 35-year history may finish its existence more appropriately as a warehouse or a chicken coop—roles it can still perform admirably. committee members are anxiously awaiting word on a 20-year grant that was issued for the Eldred Center to be used as a nursing home. There are three years left on the grant and at present if the money is not used for the stated purpose of the grant the county must pay it back. The county has asked the federal government to grant permission to transfer usage of the funds to a jail facility. Chicken coop separate agencies — a private nursing home, a mobile food service, and the Timpanogos Mental Health Center. The mobile food service could remain and provide meals for the prisoners. The nursing home directors have been looking for new quarters anyway. Restricted by state regulations to having no more than two patients per room, the nursing home directors have found the large rooms in the building unsuited for their needs. However, the spacious rooms would be an advantage in setting up a jail.
The Timpanogos Mental Health
Center, although it only occupies building. Sheriff Holley, who would ideally still favor a self-contained building by the Utah County Building, said there was much sentiment among the bond's opponents against having a jail in the middle of Provo.

## Best black come

By ROBERT GARRICK

"Dr. Strangelove" begins with two airborne super-bombers locked, re-fueling, in a mock sex act while soft music plays in the background; the song is "Try a Little Tenderness." During this credit sequence, the film's full title unfolds on the screen: "Dr. Strangelove, or How I Learned to Stop Worrying and Love the Bomb." Obviously, this is a bizarre motion picture.

In 1963, when fallout shelters were popping up everywhere, when mothers were afraid to feed their children milk because of accrued atmospheric radiation, and when people were finally beginning to "think about the unthinkable," Stanley Kubrick made a comedy about hydrogen bombs and the end of the world. "Dr. Strangelove" takes place at Burpelson Air Base, where its crazed commander, General Jack D. Ripper, seeks to save the world from a dastardly Communist plot by calling an all-out nuclear war.

Kubrick, originally wanted to make a serious film about the possibility of accidental war but came to the conclusion that "the only way to tell the story was as a black comedy, or, better, a nightmare comedy, where the things that make you laugh are really the heart of the paradoxical postures that make you laugh are really the heart of the paradoxical postures that make you laugh are really the heart of the paradoxical postures that make you laugh and in making you think.

Kubrick's characters turn in uniformly marvelous performances, probably topped by Sterling Hayden as Ripper and Peter Sellers in a triple role as the bumbling Captain Mandrake, as President Muffley ("get me Premiere Kissoff"), and as old Nazi Strangelove Keenan Wynn, as Colonel "Bat" Guane, plays a dogmatic military bureaucrat who continually speaks of "deviated preverts," and George C. Scott is the epitome of the "hawk" as General "Buck," Turgidson — probably the funniest character in the film by virtue of his straight face and intensity in the midst of absurdity.

""Dr. Strangelove" is one of the two or three great films of the sixties, and perhaps the best black comedy ever made. Kubric

## Research

(Cont. from page 13)

yet match that of other major universities in the state. In a National Science Foundation listing for the fiscal year 1973, the University of Utah ranked 32nd in the nation in acceptance of federal funds, with \$26.8 million. Utah State University ranked 98th with \$10.4 million. BYU was not ranked in the top 100. constructing buildings.

BYU research, though, does not syst match that of other major universities in the state. In a National Science Foundation

organizations.

The variety of faculty research in progress on campus may interest and surprise students who think of professors only as lecturers, testers and paper graders.

has no outside

project some serious questions arise. What will this do to the water in Hobble Creek? Will this affect Springville's water supply? During development what will happen to the soil? Will it be washed away by ensuing rains into the clean streams? How will the se wage be disposed? Will Springwood limit public access to the national forest? These are all valid questions that merit answers. Dunn explained the soil is so sandy and porous that water run-off is no problem. When the slopes are irrigated, the moisture runs right into the ground, and there is no soil erosion. The water does not even reach the bottom of the incline because of the rapid soaking of the soil.

"We're not allowing anyone to build on the stream per se. They will be close to the streams, but we're preserving and protecting the stream for everybody." 'We're protecting those," Dunn d, speaking of the streams. le're not allowing anyone to said, sp "We're

"We are probably putting more of an emphasis on it than years ago, but this simply indicates a deficiency in the past. We are trying to bring faculty research up to a level normally expected from a major university," he says.

Funding for university research can come from three different

Herb Clah, a junior from Waterflow, N.M., says of his beginning karate class: "Tve learned to keep out of trouble." Clubs offer further training perfection of the character of the participant." This is accomplished through strict self-discipline and training. "The more advanced you become in karate, the more you are taught to avoid the situation of using it. You have gained a victory by avoiding the situation," says Sundquist.

On the beginning level, "the best reason to take a karate class is to learn more about how the body works. Performing the

Maraie gammig aisciplesing

(Cont. from page 8)

If a beginning student decides to go on in his study of the art of self defense, he is encouraged to join a karate club. There, through careful training and discipline, he may a dvance through the different degrees beginning with five levels of white belt, three of brown, and finally the black belt. Mike himself studied karate for four years before achieving the black belt degree.

Mike hopes that an intermediate broate of broate class with the black belt.

karate class might help students with a basic knowledge of karate to progress at their own individual level of skill, and perhaps, working with a club, even offer degrees of belts with the instruction. body works. Performing the techniques requires coordination, grace, speed, posture and balance," claims the instructor. Lyle Davieau, a beginning karate student from Connecticut, says "I've mostly learned coordination, balance and body control in this class. It's just good to know, also, for the discipline."

"You get enough self-defense training so that after taking the class, in any situation you would be better able to defend yourself than before." Jim Howes, a sophomore from Denver, Colorado, says "now I wouldn't panic if someone threw a punch at me. I would know what to do about it." addition, Sundquist claims a get enough self-defense

Karate has become of more interest to the women at BYU. "On the rolls we have about 20 per cent girls, and it increases every semester." Sundquist says. We encourage more girls to take karate, they need self defense more than guys."

Debbie Haines, a senior from Sacramento, Calif., says "I've learned some good self defense techniques, just in case I need them. I also have a better understanding of what I can and Female interest rising

cannot do."
Sundquist does not feel anything taught in the beginning classes is dangerous. "We don't teach some things, and besides, these are mature college people, who won't go out and bop someone." As skilled as Sundquist is, he does not take unnecessary risks. "I find myself avoiding them more, because I understand

IF YOU GET TO THE "BULLDOG'S," BETTER TURN AROUND IT'S IN THE BAG

Natural contemplation of Huntsville valley facilitates this of the beauty of the

In times past, silence was absolute so the Brothers used a sign language several centuries old, but the General Chapter (international meeting of Abbots who legislate the order) decided the restriction frustrated rather than enhanced the spirituality of

The guest book contains signatures of men from Liverpool, England to Sidney, Australia. But the majority come from places like Cuba, N.M.; Swink, Colo.; and Pinedale, Wyoming. Comments range from the sublime, "No man is an island entire to himself," to the superficial, ("hard beds"). Some were philosophical, "One cannot remain indifferent here for long. The shock of facing oneself cannot be avoided. Divine Reality forces a choice . . . ." Others were humorous, "Great place to visit but I wouldn't want to live here." One was chauvinistic, "No females . . . nice!" Another, signed only "California" was barely literate, "sychadelic (sic), females...nice!" Another, signed only "California" was barely literate, "sychadelic (sic), man." One was converted, "Even an agnostic like me can appreciate this." The last entry read, "Silence is Golden."

A monastery is a do-it-yourself place, a sort of miniature city. A tour of the monk's compound would reveal a blending of the ancient and the the kitchens lack little in modern stainless steel equipment. And though the music room stores choir books in Latin, bound by metal hinges, the music lab in the next room is outfitted with a quadraphonic miniature city. A tour of the monk's compound would reveal a blending of the ancient and the contemporary. The refectory, or dining quarters, is epitome of austerity The diet is meatless. , with metal plates and cups he diet is meatless. And yet

The same duality is evident in the secular library where "Airport" shares shelf space with "A Tale Of Two Cities," and William F. Buckley's magazine "National Review" lies next to "Catholic Progress." While the wheat storage room is positively ancient, (a bucket of soil is used for a counterweight to keep the door closed), the maternity ward of the barn is equipped with closed-circuit television for keeping an eye on struggling Holstein mothers-to-be.

In search of heroe

"Parade" magazine recently published an item entitled, "In Search of Heroes." It noted that of the 1,205 freshman who entered Brown University this year, only 23 per cent have heroes or heroines. Of the people named more than once, John F. Kennedy was mentioned 7 times; Henry Kissinger 6 times; Thomas Jefferson 4 times. Mentioned only 3 times, and sandwiched between Evel Knievel and Jimi Hendrix was a man named Jesus Christ.

Perhaps the most significant common denominator between the community of Huntsville and Trinity Abbey is Jesus Christ. He ranks supreme as a personal hero—the common savior.

Brother Boniface is a rosy sort of fellow. The capillaries of his chin and cheeks and nose have broken in the harsh cold of Huntsville's winters. Because he has no occasion for raising his voice, it is tiny, meek, humble. It has ceased to be a verbal weapon and has become an instrument of deft motion. As gatekeeper of the monastery, he welcomes and bids good-bye to all who stay there. When the people of Huntsville come to buy his bread, the transaction is punctuated by "brother" from both sides, and it makes you feel good . . . real

Editor's note: Authur A. Shenfield, president of the Mont Pelerin Society, will address the question, "Are today's democracies following the path outlined in the book 'The Road to Serfdom'?" Dec. 3 at 1 and 4 p.m. in the Little Theater.

## By ROB GREATHOUSE

Seeking to find the underlying causes of Hitler's rise to power, Friedrich A. Hayek began a study which developed into the book "The Road to Serfdom." In this he states his ideas on why a dictatorship was able to gain power in one of Europe's most progressive countries. Friedrich Hayek, this year's winner of the Nobel Prize for Economics, oned argument devoid of emotional

According to Dr. Hayek's thesis, the rise of totalitarianism is not due to becomes a greater force in the lives of individuals. He does not believe that such actions are due to a plot to establish a totalitarian state, but from a desire to use the state as a vehicle to attain a utopian society.

Much of the build of the government in pre-Hitler Germany came from the desire to improve the lot of the German people. When Hitler came to power he pushed forward many of his programs under a socialist platform of improved equality. Hayek follows Adam Smith's belief that le own will.

Dr. Heyak points out that the modern utopian movements, such as socialism, have striven for contradictory goals—organization and freedom. Most socialistic groups have proposed to free the individual by establishing equality and improving the individual well being, and to accomplish these goals society must be reorganized in a more equitable is and efficient manner. The main argument to support these proposals is we should be willing to give up a few lesser freedoms, that we might seek after higher values.

Hayek is a strong proponent of John Stuart Mills' "Rule of Law," he needs to obey no person, but solely the laws. Hayek points out that a planned society places authority in agents other than the law. To administer a planned economy a vast bureaucracy must be established, setting quotas and designating production goals. In such a role they are individual. In a free society, government has the role of establishing certain guidelines within which individuals are free to operate, such as

pollution and safety standards Hayek believes that to exert control over the individual lives the sciety does not have to become a "big brother." By controlling the conomy the government can indirectly affect the decisions of

\$37.65 38.84 42.95 47.81 51.65 58.65

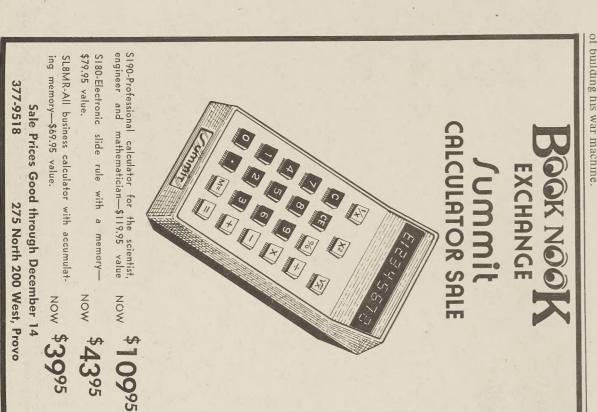

Dr. Hayek feels that once a planned society is established, with the restraints it places upon the individual, no matter how minor, the next step is fascism. He sights the evolution of fascism in German, which at the time was hailed as one of the most progressive countries in the world. It had established many social programs and economic objectives, shortly before Hitler rose to power. In his campaign he promised even greater reforms. Finally he used this system as a means of building his war machine.
